OPENING STATEMENT

For more than seventeen years, Alyam Technology has supported government entities, security organizations, critical infrastructure operators, and enterprise customers through advanced technologies that strengthen identity, enhance security, support investigations, and drive operational excellence.

Through strategic partnerships, specialized expertise, and a commitment to innovation, Alyam delivers mission-critical solutions that enable organizations to operate with confidence, resilience, and trust.

STRATEGIC POSITIONING

Ayam Technology is a Saudi leader in Identity, Forensic, Security and Scientific Technologies, delivering mission-critical solutions that strengthen trust, security, and operational excellence.

Empowering Governments and Enterprises with Advanced Identity, Forensic, Security, and Scientific Technologies.

Trusted Technology Partner for Identity, Forensics, Security and Scientific Innovation.

MESSAGE FROM THE CEO

Since our establishment in 2009, Alyam Technology has remained committed to delivering specialized technologies that create meaningful value for our customers and contribute to the advancement of security, identity, and scientific capabilities across the Kingdom of Saudi Arabia.

Over the years, we have built strong relationships with government entities, security organizations, and private sector institutions by focusing on innovation, quality, and long-term partnership. Our growth has been driven by a clear vision: to provide advanced technologies that address real operational challenges while supporting our customers in achieving their strategic objectives.

Today, the rapid pace of technological change presents both opportunities and challenges. Organizations require trusted partners capable of delivering not only technology, but also expertise, integration capabilities, operational support, and long-term commitment. At Alyam, we take pride in fulfilling this role through a comprehensive portfolio of solutions spanning identity and biometric technologies, forensic science, digital trust, scientific laboratories, and advanced security solutions.

As Saudi Arabia continues its remarkable transformation journey, we remain dedicated to supporting national priorities through innovation, knowledge transfer, and strategic partnerships with leading global technology providers.

On behalf of the Alyam team, I would like to express our appreciation to our customers, partners, and stakeholders for their continued trust and confidence. We look forward to building on our shared success and contributing to a safer, smarter, and more secure future.

Chief Executive Officer
Alyam Technology Company

ABOUT ALYAM

Founded in Riyadh in 2009, Alyam Technology Company is a Saudi provider of specialized technologies focused on identity, biometrics, forensic science, security, and scientific solutions.

For more than seventeen years, Alyam has supported government entities, security organizations, critical infrastructure operators, and private sector institutions by delivering advanced technologies that address complex operational, investigative, and security challenges.

With more than 450 successfully delivered projects and over 200 government and enterprise customers, Alyam has established a reputation for reliability, technical excellence, and long-term customer commitment.

Through strategic partnerships with globally recognized technology leaders, Alyam combines international innovation with local expertise to deliver integrated solutions across biometric identification, digital identity, forensic science, border security, cybersecurity, scientific laboratories, and emerging technologies.

OUR JOURNEY

WHY ALYAM

17+ Years of Proven

Experience Delivering specialized technology solutions across government, security, and enterprise sectors.

Global Technology

Partnerships Collaborating with internationally recognized technology leaders to bring world-class innovation to Saudi Arabia.

End-to-End Delivery

Providing consultancy, integration, deployment, training, operations support, and lifecycle management.

Trusted Government Partner

Supporting government entities and critical infrastructure operators with mission-critical technologies.

Nationwide Presence

Serving customers across major cities and regions throughout the Kingdom.

Customer-Centric Approach

Building long-term relationships through reliability, responsiveness, and technical excellence.

CORE CAPABILITIES

Technology Consulting

Providing expert guidance to support technology planning, evaluation, and decision-making.

Solution Design & Integration

Designing and integrating mission-critical solutions tailored to operational requirements.

Project Delivery & Deployment

Managing end-to-end implementation and successful deployment of complex technology projects.

Training & Knowledge Transfer

Empowering customer teams through comprehensive training and technical enablement.

Operations & Maintenance

Ensuring system availability, reliability, and long-term operational performance.

Lifecycle Support Services

Providing continuous support, upgrades, optimization, and technology evolution services.

Alyam Solution

Identity & Biometric Solutions

Advanced technologies for identity verification, biometric enrolment, authentication, and digital identity management.

Forensic & Investigation Solutions

Innovative forensic technologies supporting evidence collection, analysis, and criminal investigations. decision-making.

Border Security & Traveler Identification

Integrated solutions for traveller verification, border control, and secure movement management.

Security & Digital Trust

Technologies that strengthen organizational security, access control, and trusted digital interactions.

Digital Investigation & Cybersecurity

Advanced capabilities supporting digital investigations, cyber resilience, and threat management.

Artificial Intelligence & Data Analytics

AI-powered solutions that transform data into actionable intelligence and informed decision-making.

Scientific & Laboratory Solutions

Specialized technologies supporting research, scientific analysis, and laboratory operations.

Operations & Maintenance Services

Comprehensive support services ensuring long-term system performance, availability, and reliability.

IDENTITY & BIOMETRIC SOLUTIONS

Securing trusted identities across every stage of the identity lifecycle

Identity is the foundation of secure digital and physical interactions.

Alyam delivers advanced identity and biometric solutions that enable accurate enrollment, identity verification, authentication, and secure identity management for government and enterprise organizations.

CORE SOLUTION AREAS

KEY APPLICATIONS

FORENSIC & INVESTIGATION SOLUTIONS

Empowering investigators with scientifically proven technologies for faster, more accurate, and reliable investigations.

Modern investigations demand precision, speed, and trusted forensic evidence. Alyam delivers advanced forensic and digital investigation solutions that support law enforcement, forensic laboratories, and security organizations throughout every stage of the investigative process.

Through partnerships with leading global technology providers, we enable organizations to collect, analyze, preserve, and present physical and digital evidence with the highest levels of accuracy, integrity, and operational efficiency.

CORE SOLUTION AREAS

Crime Scene Investigation

Digital Forensics

Mobile Device Forensics

Computer Forensics

Multimedia & Video Analysis

Forensic Laboratory Solutions

Evidence Management

Forensic Imaging & Documentation

KEY APPLICATIONS

 **Trusted Evidence. Advanced Technology. Stronger Justice.** Supporting investigators with end-to-end solutions that deliver integrity, accuracy, and confidence in every case.

BORDER SECURITY & TRAVELER IDENTIFICATION

Enabling secure, seamless, and intelligent border management through advanced identity verification technologies.

Modern border management requires rapid traveller processing without compromising national security. Alyam delivers integrated border security and traveller identification solutions that enable accurate identity verification, document authentication, biometric recognition, and automated passenger processing.

Powered by globally trusted technologies, our solutions help border authorities strengthen security, improve operational efficiency, accelerate traveler clearance, and enhance the overall passenger experience across airports, land borders, and seaports.

SECURITY & DIGITAL TRUST

Building trusted digital environments through advanced security and identity protection technologies.

As digital transformation accelerates, organizations require trusted security frameworks that protect identities, secure access, and safeguard critical information. Alyam delivers integrated security and digital trust solutions that strengthen cyber resilience, protect digital assets, and enable secure interactions across government and enterprise environments.

Our solutions combine identity assurance, secure authentication, access governance, encryption technologies, and digital trust platforms to help organizations operate with confidence while meeting the highest security and compliance standards.

DIGITAL INVESTIGATION & CYBERSECURITY

Empowering organizations to investigate, respond, and defend against evolving digital threats

As cyber threats continue to evolve, organizations require advanced capabilities to investigate digital incidents, preserve electronic evidence, and strengthen cyber resilience. Alyam delivers integrated digital investigation and cybersecurity solutions that enable security teams to detect, analyze, respond to, and recover from cyber incidents with confidence.

Our solutions combine digital forensics, cyber investigations, threat intelligence, incident response, and security analytics to help organizations protect critical assets while supporting informed and timely decision-making.

CORE SOLUTION AREAS

Digital Forensics

Incident Response

Threat Intelligence

Security Operations Center (SOC)

Endpoint Investigation

Malware Analysis

Network Forensics

Security Analytics

DETECT & INVESTIGATE

Identify threats and investigate incidents with advanced forensics and analytics.

RESPOND & RECOVER

Enable rapid incident response and strengthen recovery with confidence.

THREAT INTELLIGENCE

Leverage global intelligence to stay ahead of emerging cyber threats.

PROTECT & STRENGTHEN

Strengthen cyber resilience and protect critical assets across the organization.

ARTIFICIAL INTELLIGENCE & DATA ANALYTICS

Transforming complex data into actionable intelligence through advanced AI and analytics

Artificial Intelligence is transforming the way organizations analyze information, predict risks, and support strategic decision-making. Alyam delivers intelligent solutions that combine AI, machine learning, computer vision, and advanced analytics to convert large volumes of data into meaningful operational insights.

Our solutions empower government and enterprise organizations to improve situational awareness, automate analysis, detect anomalies, and make faster, data-driven decisions with greater confidence.

CORE SOLUTION AREAS

AI-DRIVEN INSIGHTS

Turn data into actionable insights to drive better outcomes.

PREDICTIVE INTELLIGENCE

Anticipate trends, identify risks, and seize opportunities early.

DATA ANALYTICS

Analyze large volumes of data with speed and accuracy.

DECISION SUPPORT

Empower leaders with intelligence to make confident decisions.

SCIENTIFIC & LABORATORY

Delivering precision, reliability, and scientific excellence through advanced laboratory technologies.

Modern laboratories require accurate, reliable, and integrated technologies to support scientific analysis, quality assurance, and operational excellence. Alyam delivers advanced laboratory and scientific solutions that enhance testing capabilities, improve analytical accuracy, and optimize laboratory workflows across government, healthcare, research, and industrial sectors.

Our portfolio combines innovative laboratory technologies, intelligent automation, and scientific expertise to help organizations achieve faster results, higher accuracy, and greater operational efficiency.

CORE SOLUTION AREAS

PRECISE RESULTS

Advanced technologies ensure high accuracy and dependable results every time.

RELIABLE SOLUTIONS

Robust systems and instruments designed for consistency, integrity, and compliance.

SMART AUTOMATION

Automate workflows and reduce manual effort to improve speed and efficiency.

SCIENTIFIC EXCELLENCE

Empowering innovation and driving better outcomes through scientific expertise and technology.

OPERATIONS & MAINTENANCE SERVICES

Long-Term Performance Through Comprehensive Lifecycle Services.

Technology investments require continuous support to achieve sustainable value. Alyam provides comprehensive Operations & Maintenance services that maximize system availability, reliability, and operational effectiveness throughout the entire technology lifecycle.

From deployment and integration to preventive maintenance, technical support, system upgrades, and long-term operational services, our certified teams help customers maximize performance, extend asset life, and ensure business continuity.

OUR APPROACH

From Strategy to Sustainable Operations

TECHNOLOGY DOMAINS

Instead of presenting products only, Alyam presents strategic technology domains that reflect the company's role as a trusted technology partner for identity, forensics, security and scientific innovation

Identity & Biometrics

Establishing trusted identity through advanced biometric enrollment, verification, authentication, and recognition technologies.

Capabilities

- Fingerprint Recognition
- Palm Recognition
- Facial Recognition
- Identity Verification
- Authentication
- Border Identity Management

Forensic Science & Investigation Supporting

investigators and forensic professionals with technologies that enhance evidence collection, analysis, and examination

Capabilities

- Crime Scene Investigation
- Evidence Collection
- Forensic Laboratories
- Digital Forensics
- Forensic Imaging
- Evidence Management

Security & Digital Trust

Strengthening organizational resilience through trusted identity, authentication, and security technologies.

Capabilities

- Identity Security
- Access Management
- Authentication
- Cybersecurity
- Fraud Prevention
- Security Monitoring

Scientific & Advanced Technologies

Delivering specialized technologies that support research, testing, innovation, and operational excellence.

Capabilities

- Research Technologies
- Advanced Imaging
- Analytical Instruments
- Emerging Technologies

INDUSTRIES WE SERVE

Government & Public Sector

Supporting national programs, digital transformation initiatives, and mission-critical government operations

Law Enforcement & Public Safety

Providing technologies that enhance investigations, security operations, and public safety outcomes.

Border & Immigration

Strengthening border management, traveler identification, and document verification processes

Defense & Security

Supporting security organizations through advanced technologies that improve operational effectiveness and situational awareness.

Banking & Financial Services

Enhancing identity assurance, fraud prevention, and customer onboarding processes.

Healthcare & Research

Supporting laboratories, research centers, and healthcare institutions with specialized scientific technologies

Transportation & Aviation

Delivering solutions that improve security, identity verification, and operational efficiency.

Critical Infrastructure

Protecting strategic assets and enabling secure and resilient operations.

Education

Supporting academic and research organizations through specialized technologies and scientific solutions.

Hospitality & Tourism

Supporting secure, efficient, and trusted operations across hospitality and tourism environments.

STRATEGIC PARTNERSHIPS

Collaborating with Global Technology Leaders to Deliver Trusted

Ayam partners with internationally recognized technology companies to deliver advanced, mission-critical solutions across identity, biometrics, forensic science, cybersecurity, digital trust, and scientific technologies. These strategic partnerships combine global innovation with Ayam's local expertise, enabling customers to benefit from proven technologies, specialized knowledge, and long-term operational support.

Global Technology Leadership

Partnering with world-leading technology providers and industry innovators.

Proven & Certified Solutions

Delivering reliable, tested, and compliant technologies that meet international standards.

Local Expertise & Integration

Combining global technology with deep local expertise for effective implementation and support.

Knowledge Transfer

Ensuring skills development and technology transfer to build long-term local capabilities.

Long-Term Collaboration

Building enduring relationships based on trust, transparency, and shared success.

Continuous Innovation

Working together to drive innovation and address evolving challenges.

BUSINESS GROWTH & PERFORMANCE

Sustained Growth Through Trust, Innovation, and Long-Term Partnerships

Over the past several years, Alyam Technology has achieved consistent business growth driven by expanding customer relationships, successful project delivery, strategic technology partnerships, and continued investment in specialized technology domains.

This growth reflects the confidence placed in Alyam by government entities, security organizations, critical infrastructure operators, and enterprise customers across Saudi Arabia.

REVENUE GROWTH (USD Millions)

Alyam has achieved consistent year-over-year growth, increasing annual revenue from **USD 8.5 million in 2019** to **USD 16.7 million in 2025**.

GROWTH DRIVEN BY

TRUSTED CUSTOMER RELATIONSHIPS

Long-term partnerships built on reliability, responsiveness, and successful project execution.

STRATEGIC TECHNOLOGY PARTNERSHIPS

Collaboration with leading global technology providers to deliver proven and innovative solutions.

SPECIALIZED EXPERTISE

Deep capabilities in identity, biometrics, forensic science, security, and scientific technologies.

NATIONAL TRANSFORMATION OPPORTUNITIES

Supporting Saudi Arabia's evolving technology, security, and digital transformation initiatives.

COMMITMENT TO EXCELLENCE

Alyam is committed to maintaining the highest standards of quality, operational excellence, and customer satisfaction through continuous improvement, professional practices, and internationally recognized standards.

QUALITY

Applying robust quality management practices to ensure reliable delivery.

COMPLIANCE

Adhering to applicable laws, regulations, and industry requirements.

INFORMATION SECURITY

Protecting data and information through strong security governance and controls.

CONTINUOUS IMPROVEMENT

Investing in people, processes, and innovation to drive sustainable growth.

Alyam operates in accordance with internationally recognized standards and regulatory requirements. Our **certifications and accreditations** demonstrate our commitment to quality, compliance, and excellence.

SUPPORTING SAUDI VISION 2030

Ayam Technology is committed

to supporting Saudi Arabia's Vision 2030 by enabling digital transformation, strengthening security capabilities, and contributing to the development of a knowledge-based economy.

Through the introduction of advanced technologies and strategic partnerships with global innovators, Ayam helps organizations enhance operational efficiency, strengthen digital trust, improve security outcomes, and accelerate technology adoption across multiple sectors.

TECHNOLOGY TRANSFER & KNOWLEDGE DEVELOPMENT

We actively promote knowledge transfer through specialized training, technical workshops, and collaborative engagement with customers and partners to ensure effective adoption and sustainability of advanced technologies.

SUPPORTING NATIONAL CAPABILITIES

We invest in Saudi talent and maintain a strong local presence to develop national expertise, create sustainable value, and contribute to the Kingdom's ambitions for innovation, localization, and technological advancement.

ENABLING FUTURE READINESS

We deliver innovative solutions that help organizations prepare for the future, adapt to emerging technologies, and maintain the highest standards of security, reliability, and operational excellence.

SAUDI VISION 2030 FOCUS AREAS

DIGITAL TRANSFORMATION

Enabling digital innovation and advanced technology adoption across sectors.

NATIONAL CAPABILITY DEVELOPMENT

Building and empowering local talent and specialized technical expertise.

KNOWLEDGE TRANSFER

Supporting knowledge exchange and capacity building through training and collaboration.

TECHNOLOGY LOCALIZATION

Encouraging local content and sustainable technology localization initiatives.

INNOVATION ENABLEMENT

Driving innovation through advanced solutions and global technology partnerships.

OPERATIONAL EXCELLENCE

Supporting organizations to achieve higher efficiency, quality, and performance.

Ayam Technology is proud to contribute to the realization of Saudi vision 2030 by delivering innovative technology solution strengthening National capabilities, and building secure ,digital and proupe future for the kingdoms

Building Trusted Technologies for a Safer, Smarter Future

Thank you for your interest in **Alyam Technology**.

We look forward to building long-term partnerships and delivering innovative technologies that enhance security, strengthen digital trust, and support the Kingdom of Saudi Arabia's future ambitions.
